annual apple

The unprecedented wet May and opening of potato planting all over Northern and Centra Ohio, and less breadth of lands will be devoted to these crops than usual. Advantage has been taken however by the farmers of the few fine days between rains, and should the next seven ty-five prove favorable, there will be plenty corn and potatocs to spare along the backbone counties and down the slopes to Lake and River. Grass never was more loxuriant and promising in the dairy and stock sections and all the accounts from the grain portions of the State speak of the almost maryelous growth of wheat, rye, barley, cats and grass.' An intelligent, ob-

the western part of the county new farms are being opened and smoke is curing through the woods in every direction. A very heavy emigration from Pennsylvania and the eastern States and the Sioux is of long standing and deep is pouring in, more, probably, than in any pressure season. The magnificent country, fruitful soil and other advantages possessed by Crawford is attracting scores of families. Crawford in attracting scores of families. Crawford in attracting scores of families. Crawford in the singular state of the sing

a few years outstrip the older counties in point numbers. It says:

W. Henry has produced a simple invention Slave Trade. The letter of the Secretary is full would be expelled after a peaceable tarry of ten

there is a long fall purpose, on the part of a long affican emi to yarn in the same moment that it is ginned on a plantation. His plan dispenses with the necessity of pressing the cotton, and saves all the waste and a large proportion of the freight incident to shipping; also the waste resulting from the use of the "picker" after the cotton is matted and crushed by the press. The same motive power which works the gin works the addition all methicsery.

Mr. Henry is conducting the experiment of applying his invention on a large scale, on a plantation belonging to Mr. Yerger, in Yazoo county, Mississippi, and it is stated that he has shearly demonstrated that with the same labor required to raise cotton and gin it, it may be converted into yaras. The Richmond Enguster publishes a letter from Mr. Henry giving an account of his operations on the plantation of Mr. Yerger, and remarks that "beyond doubt, it opens a new era is the history of cotton indusplete in all their parts, each gun being supplied with 400 shot.
